# About plato-go.com

We are a technology company that has been working in the food industry over the last 15 years using other technologies that offer systems that are always missing several key operational components that are critical to business owners. After gathering onsite knowledge through real case operational scenarios from restuarants, food trucks, and many more food retail brick-and-mortal businesses, we decided to take a pivot role in making our own software that will fix and improve how the food industry operates and the look and feel to our users. We strongly believe that because we have extensive experience in this field setting up businesses of all types, that our acquired knowhow will translate into great results for our merchant network in terms of speed, efficiency, and making more profits for all our partners.
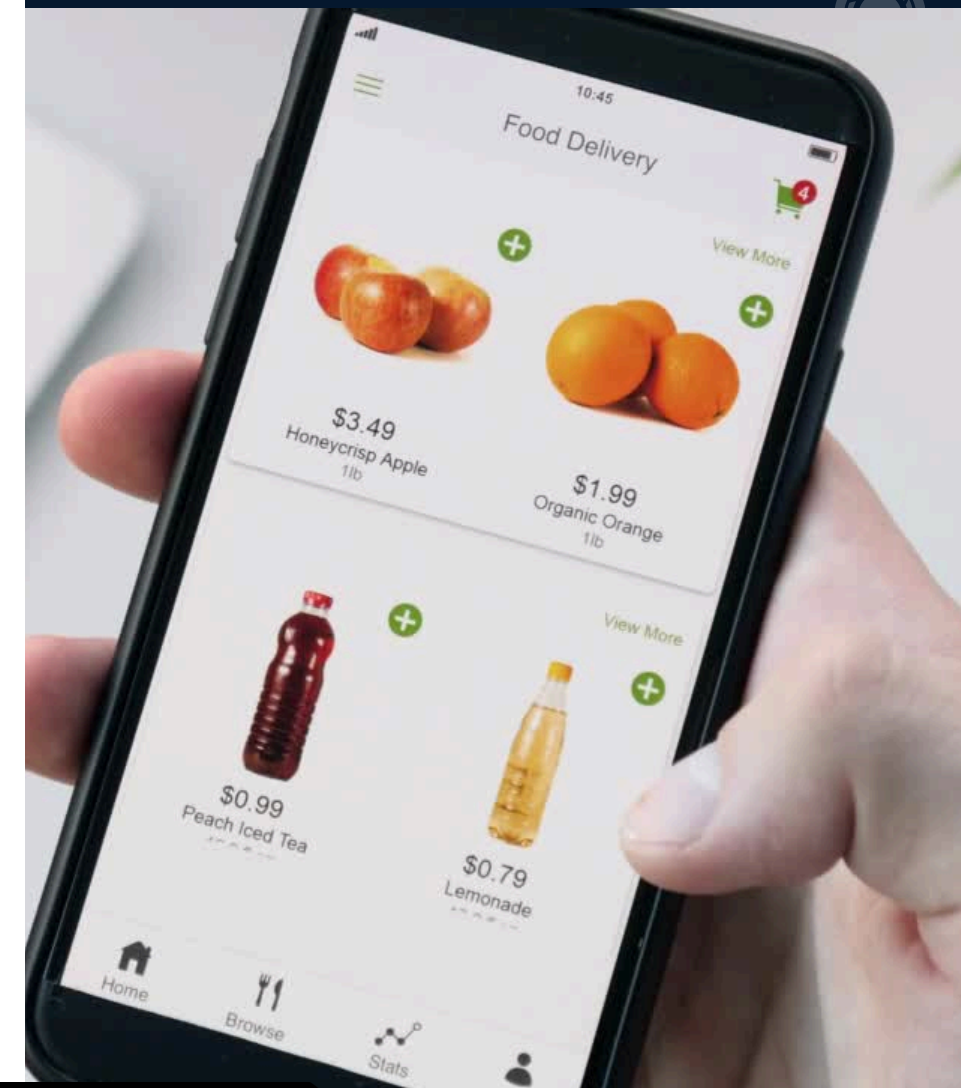

# Transforming Business Through Technology

Our vision is to lead the way in digital transformation, empowering businesses to achieve more through technology. We believe in innovation, sustainability, and creating solutions that shape the future and bring a win-win mentally for all steakholders.

Plat⊙go™

# Online Ordering Platform tailored to your needs!

Our Scalable Cloud Solutions empower businesses to efficiently grow and adapt, offering secure, customizable cloud infrastructure and services that align with evolving business needs. Our focus will be in bringing customers to your store while maintaining the cost low for the Merchants and Customers

Platogo™

# Real-World Success Stories

We are the exclusive Point of Sale provider to one of the largest taco food trucks in the United States with well over 27 hardware devices that process in excess of 2.5 million in sales monthly.

- Client A: Increased operational efficiency by 60% using our custom software.
- Client B: Increase their monthly gross profit margin by 24% by taking faster orders while calculating all the accounting
- Client C: Scaled seamlessly to our enhence and detail menu developement that processes orders with 10 seconds.
